Box Issue Fee
Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

Prior to issuance, please amend the subject application as follows:

IN THE CLAIMS:

1. An apparatus for executing a secure program in a computer system, wherein the ability to make workable copies of the secure program from the computer system is inhibited, the apparatus comprising:

a program memory in which the secure program data is stored in an encrypted form;

a security chip coupled to the program memory, the security chip comprising:

means for decrypting portions of the secure program into a clear portion and a remainder portion;
